

Fertility Treatment Cost (not covered by Japanese Health Insurance)

Procedure	Fee (tax incl.)	Remarks	
<i>OPU/Egg collection related</i>			
OPU	OPU (Oocyte pick-up)/Egg collection (when eggs are collected)	¥165,000	
	OPU/Egg collection (when eggs aren't collected)	¥55,000	
	Anesthesia (at the time of OPU/Egg collection)	¥55,000	
Insemination & Culture	Time-lapse culture	¥33,000	
	Insemination & Culture (combine the eggs & sperm to culture)	¥110,000	
	Microinsemination (ICSI) (1 egg)	¥55,000	Additional ¥5,500/egg
	Preparation for microinsemination (when all eggs are immature)	¥11,000	
	Oocyte (egg) activation	¥33,000	
	Sperm activation	¥55,000	
	SEET culture (egg(s))	¥33,000	
	IVM (in Vitro Maturation)	¥220,000	
Cryopreservation	Embryo freezing (1 to 4 embryos, initial 1 year storage)	¥55,000	Additional ¥11,000/embryo
	Embryo freezing (10 or more, initial 1 year storage)	¥121,000	
	Annual renewal fee for the frozen embryo storage	¥55,000	
	SEET medium freezing (initial 1 year storage)	¥7,700	
	Annual renewal fee for the frozen SEET medium storage	¥11,000	
<i>Embryo Transfer related</i>			
Trial catheter insertion for embryo transfer	¥4,400		
Embryo thawing	¥55,000		
Embryo transfer	¥110,000		
Assisted hatching (by puncturing the zona pellucida)	¥11,000		
1st SEET* (injection of embryo culture medium)	¥55,000	*SEET: stimulation of endometrium embryo transfer	
2nd SEET* (embryo transfer)	¥110,000		
<i>Sperm related</i>			
Ejaculated sperm freezing (initial 1 year storage)	¥55,000	per specimen	
Annual renewal fee for the frozen ejaculated sperm storage	¥33,000	per specimen	
Sperm thawing	¥22,000		
Annual renewal fee for the frozen c-TESE/TESE sperm storage	¥55,000		
<i>Transportation related</i>			
Preparation fee to export frozen sperm/egg/embryo(s) *	¥55,000		
Preparation fee to store frozen sperm/egg/embryo(s) imported*	¥33,000		

*These costs are for pretreatment given to the specimen(s).

Please be advised that you are responsible for the arrangement / cost for the transportation of your specimen(s).

Fertility Treatment Cost (not covered by Japanese Health Insurance)

Procedure	Fee (tax incl.)	Remarks
<i>General fertility test/treatment</i>		
Hysteroscopic selective tubal chromotubation	¥16,500	
Sperm analysis (computer-automated semen analysis; CASA)	¥5,500	
Sperm analysis (CASA with visual evaluation)	¥8,800	
Intrauterine insemination (IUI)	¥23,100	
<i>Analysis of implantation</i>		
Test for chronic endometritis (CD138; immunohistochemistry)	¥16,500	
ERA: Endometrial Receptivity Analysis (1st time)	¥165,000	
ERA: Endometrial Receptivity Analysis (retest)	¥148,500	
Endometrial flora/microbiome analysis (1st time)	¥50,600	
Endometrial flora/microbiome analysis (retest)	¥39,600	
EndomeTRIO: ERA, EMMA and ALICE test EMMA: Endometrial Microbiome Metagenomics Analysis	¥209,000	
EMMA and ALICE test (1st time)	¥77,000	
EMMA and ALICE test (retest)	¥66,000	
ALICE: Analysis of Infectious Chronic Endometritis (1st time)	¥55,000	
ALICE test (retest)	¥45,100	
<i>Platelet-Rich Plasma (PRP) therapy</i>		
PRP therapy, 2-injection protocol for a patient referred from outside Sanno Hospital	¥220,000	1 injection protocol: ¥165,000
PRP therapy, 2-injection protocol for a patient being treated at Sanno Hospital	¥176,000	1 injection protocol: ¥132,000
Collection of PFC-FD PFC-FD: Platelet-derived Factor Concentrate, Freeze-Dried	¥220,000	
PFC-FD unilateral ovarian injection	¥55,000	
PFC-FD bilateral ovarian injection	¥110,000	
PFC-FD intrauterine injection	¥33,000	
<i>Ovarian dysfunction treatment (surgical procedure)</i>		
Drug Free IVA: in vitro activation w/o ovarian tissue freezing	¥1,100,000	4-day Hospitalization. 4 days room charged separately.
Drug Free IVA with ovarian tissue freezing	¥1,980,000	
Ovarian tissue freezing (initial 1 year storage)	¥55,000	per procedure
<i>Infertility consultation</i>		
Counseling with a Nurse	¥4,400	
Consultation with an Embryologist	¥3,300	
<i>Genetic counseling related</i>		
Genetic counseling (20 minutes) Saturdays only	¥5,500	extra ¥2,000 for appointment
PGT-A, or preimplantation genetic testing for aneuploidies	¥88,000	per embryo
